4.4 Induction runs from reporting time until 1:00 PM and includes a lunch with the team. Business casual dress is recommended for the first day.

4.5 New joiners are assigned an onboarding buddy from their team, who is their first point of contact for informal questions during the first 30 days.

## 5. Changes to joining date or role

5.1 If the joining date is brought forward or postponed, all dependent tasks are re-planned relative to the new date using the timeline in section 2. Owners are notified of their new due dates.

5.2 If the joining date is brought forward so that fewer than 7 days remain, document submission becomes the priority. HR Onboarding and IT Service Desk agree whether provisional access (POL-HR-002 section 5.2) is needed on Day 1.

5.3 If the role changes before joining, the onboarding checklist is regenerated for the new role. Documents already Accepted remain valid. New role-specific documents, access requests and approvers are added, and items no longer needed are cancelled.

5.4 If the location changes, Facilities and IT Service Desk tasks are moved to the new location's owners.

## 6. Escalation of delayed tasks

6.1 Every onboarding task has an owner and a due date. A task is Overdue when its due date passes without completion, and Blocked when it cannot start because a task it depends on is incomplete.

- **Task overdue by 1 working day**. First reminder: Automatic reminder to task owner; escalation: None yet.
- **Task overdue by 2 working days**. First reminder: Second reminder to task owner; escalation: Owner's manager is informed.
- **Task overdue by 3 working days, or joining date within 3 days**. First reminder: Owner and owner's manager; escalation: Head of the owning department and HR Onboarding.

6.2 When a joiner's task is blocked by someone else's overdue approval, the joiner is told who owns the blocking task and its expected completion date. The joiner is never asked to chase approvers directly.
