IT Asset and Access Provisioning Policy

Aurelia Technologies Pvt. Ltd. · POL-IT-003 · Version 4.0 · Effective 01 Jul 2026

Policy ID: POL-IT-003

Policy owner: IT Service Desk (it-servicedesk@aureliatech.example)

Applies to roles: All roles

Applies to departments: All departments

Applies to locations: Bengaluru, Pune, Mumbai

Applies to grades: G1 to G9

Approved by: Chief Information Officer

1. Purpose

This policy explains how laptops, email accounts and role-specific application access are requested and delivered to new joiners, and in what order.

2. Order of provisioning

2.1 IT provisioning requests can be raised only after the employee's HR record has been created by HR Onboarding. The HR record is created once the mandatory documents in POL-HR-001 section 3 have been Accepted.

2.2 The provisioning sequence is: HR record created, then laptop request and corporate email account, then role-specific application access.

2.3 Access to production systems additionally requires a completed background verification (POL-HR-002) and a signed Information Security acknowledgement (POL-SEC-004).

3. Laptop allocation by role

- **Engineering, QA, DevOps, Data**. Standard laptop: 16-inch developer laptop, 32 GB RAM; notes: Admin rights on request with manager approval.
- **Product Design**. Standard laptop: 16-inch laptop, 32 GB RAM, colour-calibrated display; notes: External monitor issued at office.
- **HR, Finance, Sales, Operations**. Standard laptop: 14-inch business laptop, 16 GB RAM; notes: Standard user rights.

3.4 The laptop request must be raised at least 7 working days before the joining date. IT Service Desk images and ships or stages the laptop at the joining location at least 1 working day before joining.

4. Email and identity

4.1 The corporate email account is created in the format firstname.lastname@aureliatech.example within 1 working day of the HR record being created.

4.2 Login credentials are shared on the joining day only, in person or through the employee's manager. They are never sent to a personal email address.

5. Role-specific application access

- **Software Engineer, DevOps Engineer**. Applications: Code repository, issue tracker, CI/CD pipeline (non-production), cloud sandbox; approver: Hiring manager.
- **QA Engineer**. Applications: Issue tracker, test management tool, staging environment; approver: Hiring manager.

- **Data Analyst, Data Scientist**. Applications: BI dashboard tool, analytics warehouse (masked data); approver: Hiring manager and Data Governance.
- **Product Designer**. Applications: Design tool, issue tracker, prototyping tool; approver: Hiring manager.
- **HR Associate**. Applications: HRMS (role-based), applicant tracking system; approver: Head of HR.
- **Finance roles**. Applications: ERP finance module; approver: Finance Controller.

5.7 Each access request must be approved by the listed approver within 2 working days. If an approval is overdue, the request is escalated as described in section 7.

6. Changes before joining

6.1 If the joining date moves, IT Service Desk re-schedules laptop staging to 1 working day before the new date.

6.2 If the role changes before joining, previously requested role-specific access is cancelled and re-requested for the new role. The laptop is changed only if the new role is in a different role group.

7. Service levels and escalation

- **Laptop ready at location**. Target: 1 working day before joining; escalate to if missed: IT Service Desk Manager.
- **Email account created**. Target: 1 working day after HR record; escalate to if missed: IT Service Desk Manager.
- **Access approval**. Target: 2 working days; escalate to if missed: Approver's manager.
- **Access granted after approval**. Target: 1 working day; escalate to if missed: IT Service Desk Manager.
